

HEALTH AND SAFETY RISK ASSESSMENT

STITHIANS SHOW 2024

(THIS FORM MUST BE COMPLETED)

Your risk assessment should assess the risks throughout the event, including setting up and breaking down, and considers you, your staff/helpers and members of the public for the whole duration. The table below is a guide; it is your responsibility to assess the hazards and risks associated with your exhibit/stand and/or any demonstrations you are undertaking. If you need more space, please make additional copies of this page.

If you have a pre-existing risk assessment for your business you may use your documentation however, your risk assessment must be specific to Stithians Show. You should ensure you have received competent advice when completing your risk assessment. This may, for e.g., be in-house expertise, through a competent advisor or through your trade/industry body. Further advice is available on the HSE website [Managing risks and risk assessment at work – Overview -HSE](#)

Tripping/slipping	Manual Handling	Lifting operation	Vehicles
Working at Height (Ladders)	Livestock	Electricity	Moving Machinery Parts
Blades/sharp objects	Chemicals (cleaning fluids)	Pressure Systems	Dust (e.g. grinding)/hot works
Fumes (vehicle engines)	Noise	Overcrowding	Flammable Liquids
