# **APPLYING FOR A STAND**

## 2024 Exhibitors

If you exhibited at the 2024 show, you get priority to retain your stand site from the 2024 show, please complete the application form and return, with 50% deposit by the deadline of the 28th July 2025. Sites are not guaranteed for applications received after the deadline.

## Stand Location

If you wish to request a change of location, these will be offered before new exhibitors, as long as stand application is received before the deadline. Space will be offered in date of application order. Please indicate on your application your preferred location. We do try to accommodate as many as possible in their preferred locations, although please understand this is not always possible.

If you wish to make changes to the dimensions of your stand, we unfortunately cannot guarantee you will be able to retain your 2024 location.

There may be a few layout changes for the 2024 show, if these affect you we will try and let you know as soon as possible and offer you sites close to your previous location as possible.

PLEASE NOTE: You may lose your space if deposits and final payments are not received by the deadlines, of the 28th July & the 1st October 2025.

# **APPLYING FOR A STAND**

## New Exhibitors

If you would like to apply to exhibit at the show for the first time, please complete and return the application forms, with 50% payment of stand costs. Accompanied by a full description of your products/services, any photos you may have of your stand as well as website or social media details.

## Stand Location

New applications will be reviewed in date of receipt order and suitable available sites will be offered from late July. The remaining 50% will be due by the 1st October 2025.

Once a stand has been confirmed the cancellation policy applies as outlined on page 9.

Applications received after the 1st October 2025 must be accompanied by full payment.

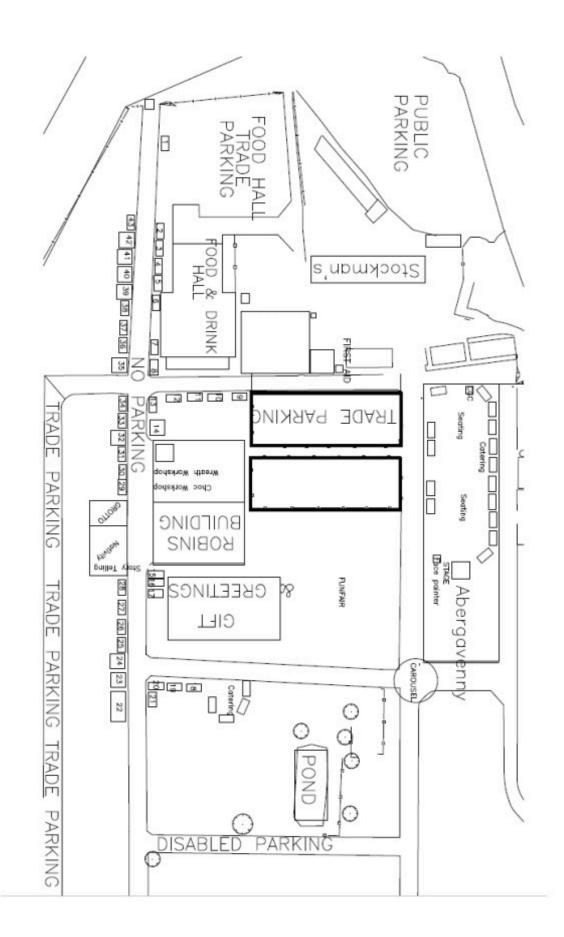

Please indicate on your application your preferred location. We do try to accommodate as many as possible in their preferred locations, although please understand this is not always possible

## **Charity Stands**

The number of stands allocated to charities will be limited to two per area. Those charities selling products e.g. Christmas cards will be prioritised.

# **1 - OUTSIDE SPACE STANDS**

Outside Space stands are located on grass and face tarmac walkways. Exhibitors need to make their own arrangements for appropriate cover of their stand space.

Please be aware that if booking outside space in November that the weather can be changeable and the grass maybe wet. Please make sure you bring your own provisions to deal with the wet ground. (Only a small supply of woodchips from the Society will be available)

## **NEW STANDARDISED STAND SIZES**

To make things easier for our exhibitors this year we have introduced set stand sizes, meaning you don't have to do any calculations, just select the size stand you require.

OPEN SPACE PRICING 2025	SIZE	COST (+ VAT)
General Trade	6 x 3 m	£260
General Trade	6 x 6 m	£350
General Trade	9 x 6 m	£510

# 2 - COVERED SPACE STANDS

We offer 3 covered options for exhibitors who require a smaller space and prefer to have cover provided.

- Exhibitors will need to provide their own furniture
- Covered stands do not come with guaranteed space behind for storage/parking
  - Access to and from the back of your stand will be included in stand size.

**Gifts & Greetings Marquee** - Space within our heated marquee. All stands are 2 metres depth, perfect for smaller and more delicate items that prefer to be indoors.

**Robins Barn** - Open fronted barn, stands are within the barn and are 3 metres depth, perfect for those who require larger covered space.(Please note that in some adverse weather conditions the stands at the front of the barn maybe effected by these conditions)

Christmas Chalet - Our Christmas Chalets are located facing our main walk ways. Perfect for those who want to be in the hustle and bustle of the show and are able to hand out samples.

COVERED SPACE PRICING 2024	UNIT SIZE	PRICE PER BAY (+ VAT)	ADDITIONAL METRE FRONTAGE + VAT (if required)
GIFTS & GREETINGS MARQUEE	2 x 2 m	£276.60	£100.00

# THE HEALTH & SAFETY AT WORK ACT

#### **MANAGEMENT OF HEALTH & SAFETY AT WORK REGULATION 1992**

We, the Board of Trustees of the South of England Agricultural Society, South of England Centre, Ardingly, Haywards Heath, West Sussex, RH17 6TL (hereinafter called the Society) in order to comply with the above named Regulations are required to carry out an assessment as to the risk to health and safety of our employees while at work, and any other person who may be affected by our work activity. This assessment is necessary so that the risks can be identified and preventative and protective action taken to ensure compliance with the law.

The Society acknowledges and accepts these responsibilities in respect of staff who are in their direct employment, and those who are selfemployed on contract, when working where other teams of workers or self-employed persons are engaged, and where each other's activities could present a potential hazard to the health, safety and welfare of all parties.

Regulation 9 of the above named Statute identifies the need for co-operation and coordination to ensure that a high standard of health, safety and welfare is maintained on a shared workplace at all times. This will include:

a. Co-operation with other employers

b. Taking reasonable steps to co-ordinate the measures taken to comply with relevant statutory provisions

c. Taking all reasonable steps to inform other employers of the risk to their employees' health and safety

We recognise that in order for the above action to be effective, it will be necessary for an assessment to be made in order that foreseeable events likely to cause risks or hazards can be identified and a decision made between the site occupants as to what action will be taken.

This joint plan of action will be written down and exchanged between all parties involved on the site.

**NB** In situations of serious and/or imminent danger and for dangerous areas, the emergency procedures will clearly set out instructions as to what action is to be taken by all staff irrespective of employment status and will be ACTIONED WITHOUT QUESTION.

#### **CO-OPERATION WITH SITE AGENTS (THE CONTROLLING EMPLOYER AND**

MULTIOCCUPANCY WORKPLACE). Where the main employer controls the work site, our employees, the staff of other firms at work on the site and self-employed persons under contract to our Society will at all times assist the controlling employer or his agent in assessing the shared risks and co-ordinate any measures. However, where there is no controlling employer, it is agreed that for such sites there shall be appointed a health and safety co-ordinator who shall be competent to meet the needs of these Regulations and whose responsibilities will extend to bringing together the efforts of individual employers and self-employed on the site. It is recognised that this appointed person may need to seek advice from another competent person (i.e. location of underground power lines, gas and water utilities etc.) in order for the risk assessment to be made and to determine appropriate measures.

# THE HEALTH & SAFETY AT WORK ACT

To eliminate these possible risks, the Society will, as far as is reasonably practicable, undertake to provide such financial and material support to establish a safe working environment. All staff are required to follow the safety procedures and practices as laid down at all times.

#### **IMPORTANT**

Personnel who are employed by the Society or those who are self-employed are listed in the attached appendix. However, you are reminded that it is your duty to report to the Society details of any dangerous work situations that might represent a serious or imminent risk to yourself or others (e.g. broken or defective guards that would render a component as failing to comply with relevant Regulations).

#### **ERECTION OF TEMPORARY BUILDINGS, TENTS,** AWNINGS AND SIMILAR STRUCTURES

The Society requires that with any tender and/ or application for erection of the above named structures. a risk assessment that relates to health and safety is carried out in accordance with the following:

1. Health and Safety (The Management of Health & Safety at Work) Regulation 1992 (Risk Management Assessment).

2. A method statement for the activities that would be undertaken in respect of the work to which that tender refers.

3. A copy of the tender candidate's current Statement of Safety Policy Health & Safety at Work etc. Act 1974 section 2 (3) refers.

4. A copy of the Manual Handling Operations Regulations 1992 assessment in respect of the movement of heavy and/or difficult articles (where relevant).

5. Evidence that, following all relevant site inspections (where necessary) due consideration has been given

to the protection of the essential services of electricity (both above and below ground), telephone, gas, water and drainage.

6. An assurance that at all entrances to such temporary structures, positive steps will be taken to alert the user as to the change of levels so as to provide a safe means of access to and egress from by securely placed ramps etc. Tripping hazards must be clearly identified by demarcation tape or similar.

Availability for disabled access should also be considered.

7. Confirmation that each exit will be equipped with the current and correct fire/emergency exit signs.

8. Where guy ropes etc. are used these will be located so as not to impede the safe and freeegress from these temporary structures in event of an emergency.

9. Confirmation of the understanding of and the procedures in place to ensure compliance with the Reporting of Accidents, Disease and Dangerous Occurrences Regulations 1995 and the details to whom such incidents are to be reported on site and to the Society.

#### **PROTECTION OF PEDESTRIANS**

The Society accepts that they have a responsibility to ensure that visitors to any event for which they have overall control are not placed at risk. With regard to the duties imposed by Regulation 9 of the Health & Safety (The Management of Health and Safety at work) Regulations 1992 (Risk Management) the Society requires that the organisations, firms and their staff will co-operate in order to maintain the following requirements:

# **THE HEALTH & SAFETY AT WORK ACT**

#### **VEHICLE MOVEMENT**

Suppliers to trade stands must ensure that they vacate the site before public admission to the event. The only exception to this rule will be:

1. The movement of emergency vehicles (Fire, Police, Ambulance) these vehicles will be identified by blue colour flashing beacons.

2.Doctors on duty their vehicles will display a green colour flashing beacon.

3. The transportation of Honoured Guests of the Society, during visits to and from events, stands or other official business, these vehicles will use an orange colour flashing beacon where fitted or use hazard warning lights and display dipped headlights.

4. The movement of the Society's own service/supply vehicles or those authorised by the Society i.e. contractors, caterers service vehicles etc. These vehicles will use an orange coloured flashing beacon and display dipped headlights when fitted.

5. The Society requires that all contractors' vehicles travel on the Showground at a safe speed and be aware of the risks to others. Failure to observe this requirement could jeopardise current and future contractual agreements.

#### SERVICE PROVIDERS

In order that the Society can satisfy itself that all due attention has been given to the matter of Health & Safety by firms engaged to provide a service at events for which the Society has overall control, it will be necessary to submit the following documents:

- Statement of Safety Policy
- Risk Management Assessment (including regulation 9)
- Details of staff training in respect of procedures in an emergency

#### SOCIETY PERSONNEL
