Set Up and Break Down Site Rules for Contractors, Exhibitors and Traders

In the interest of everyone's safety, please observe the following points. Please also ensure that any third party contractors working on your behalf receive a copy of these Site Rules. You are responsible for ensuring that you appoint competent contractors and that suitable risk assessments, method statements and insurances are in place for your contractors or for the work that you undertake on the Showground.

4. Please park tidily and considerately. Do not park on other traders' pitches or block/restrict access routes around the Showground.
5. High-Vis jackets should be worn during set up and break down – this is for your safety while vehicles are operating around the site.
6. If the ground is marked, fenced or taped off **DO NOT** drive or park on it.
7. Forklift/Telehandler operators must hold relevant competency certificates. You may be asked for evidence of these. All equipment must be suitably maintained and have evidence of statutory inspection reports, where required.

FIRE

12. No smoking is permitted in any marquee or structure, or during the building of such a structure.
13. Please be aware that the ground and hedgerows may be dry. Ensure that you dispose of all cigarette ends in an appropriate container to prevent fire.

14. You are responsible for ensuring you have your own fire extinguisher available during the set up or break down.
15. In the event of a fire that cannot be safely extinguished with the equipment readily available please call 999 immediately (see point 17 for location details) and alert a Show Official.
16. In the event of an evacuation, please follow the instructions of the Show Officials.

29. A plan of underground services is available from the Show Secretary. This plan must be consulted before any incursions are made into the ground. This will include the use of ground pins.

WELFARE

30. Toilet facilities are provided at various points across the Showground. Please use these and not the hedges!
