

## TRADESTAND RISK ASSESSMENT

Dunster Show

It is a requirement of the Show (and in many cases a legal requirement) that any organisation or individual wishing to exhibit as a tradestand or similar provides a suitable and sufficient risk assessment of their proposed undertakings at the Dunster Show. The below assessment form is intended as guidance only to assist you consider the hazards related to your stand. This does not absolve you from your legal obligations or responsibilities or transfer such.

Your assessment needs to identify the significant hazards at each stage of attendance (eg; build up, show day and break down) that may be posed by your stand and your operations to anyone on the showground, including you and your staff, your contractors as well as visitors. You must endeavour to remove or reduce these risks to protect people from injury.

The completed and signed form must be submitted to the event organiser as well as maintained available on your stand for inspection by the Regulatory Services / Event Organisers upon request.

You do not need to use the following risk assessment template; you may use another method/format if you wish provided you are satisfied as to its appropriateness to your stand at this show. Further guidance can be accessed on the Health and Safety Executive's website: <https://www.hse.gov.uk/simple-health-safety/risk>

Note: It is unlikely that the activities associated with a stand will not have some risk attached therefore, statements such as 'No Risk' will need to be qualified.
