As part of our efforts to improve sustainability and to make environmentally-minded choices we took the decision to ban ALL plastic containing foam at all shows in 2024. Many current flora foams on the market are non-biodegradable and use micro-plastics and due to nature of its use is very easy for these to get into the water supplies. We have taken the decision in consultation with exhibitors, competitors, venues, and site managers.

What are the alternatives? There are several great floristry resources online proposing alternatives.

Permissible alternatives include:

Agra wool

Floral Fibre
