BIOSECURITY

For biosecurity reasons after the 2001 Foot and Mouth outbreak, the area of land that will be used by cloven hoofed animals during the Show has to be licensed by DEFRA in accordance with the requirements of the Animal Gatherings (England) Order 2010. Therefore, we would ask all persons involved with the handling of stock to co-operate fully with any requirements and instructions that may be in place. To obtain a Show Licence, DEFRA requires that:

- the Show secretary has a complete record of anyone handling or in contact with the stock and of all entries, so please complete all the documentation fully that is supplied to all livestock entrants and hand it to the relevant person on the show day.
 - all transport has been correctly cleansed and disinfected prior to loading as any vehicle entering the licensed premises may be inspected by the Biosecurity Officer or his nominee and any vehicle contaminated with animal excreta other than excreta from animals on the vehicle at the time will be denied access.
 - attendants wear protective clothing and footwear capable of being disinfected whilst in the animal area.
 - any clothing or protective clothing used is not dirty or contaminated with animal excreta, as access by any judge, stockman or stock owner who arrives in dirty clothing will be restricted until they have either:
 - i. removed the dirty clothing and put on clean clothing
 - ii. cleansed and disinfected the dirty clothing
 - when leaving the animal area, attendants remove protective clothing, wash their hands and ensure that footwear is clean and disinfected.
- N.B There will be clearly signed facilities for drivers, exhibitors, stockmen and others who handle animals, used bedding, used feed or animal excreta to change or cleanse and disinfect clothes and footwear or to dispose of disposable clothes; these facilities will be provided at the veterinary tent in

the Animal area. Suitable medicated hand wipes for use by such persons and by members of the public on request will also be supplied.

- any livestock vehicle must remain on the licensed premises for the duration of the gathering in the designated parking areas on the showground and only reload the stock that it transported to the show. Any livestock vehicle that leaves empty will require a special declaration to undertake disinfection elsewhere before returning as supplied by the Animal Health authorities.
- vehicles do not leave the showground contaminated with animal excreta picked up in that area. Any such vehicles that are visibly dirty will not be allowed to leave until the affected parts are cleansed and disinfected. A pressure washer will be available if required.
- all documents relevant to your entries are completed and submitted.
