2. In view of the Animal Welfare Regulations, all sheep entered for the Show must comply with the Regulation that 'sufficient tail' will have to be retained to cover the vulva of female sheep and the anus of male sheep'. This rule also applies to all imported sheep. Any sheep which fail to meet this legal requirement will be disqualified from classes entered.
 3. Every animal entered in Classes 186-243 must be entered in, or certified as eligible, or accepted for entry in the Flock Book of its breed. Guidance Sheep and Goats - Movements to Show Grounds

This note summarises what keepers and show organisers should do to comply with the rules governing the recording and reporting of movements of sheep to and from shows.

The Disease Control Order (England) 2003 (DCO) and the Disease Control (Wales) Order 2003 (DCO(W)) provide for a movement standstill when animals are moved onto a holding where livestock are kept. In the case of sheep and goats a 6-day standstill applies. It would be impossible for shows to function if the 6-day standstill rule was applied to shows and therefore an exemption to the standstill provisions in respect of shows has been agreed subject to compliance with the following requirements.

Licence conditions under the Animal Gatherings (England) Order 2010 (AGO) and the Animal Gatherings (Wales) Order 2010 require that show organisers keep sufficient records to enable the tracing of animals and livestock vehicles in the event of a suspected case of a notifiable disease at the premises. Animal Health will satisfy themselves that the showground has a system in place that meets these requirements as part of the AGO licensing approval. The show organiser is required to retain a copy of the incoming movements document for 6 months.

The general licences for the movement of sheep and goats issued under the DCO and DCO(W) have been amended so that they do not require sheep and goats being moved to show grounds to be individually identified and individually recorded.

However, the identification and recording provisions of the Sheep and Goats Records Identification and Movements legislation (SAGRIMO) apply.

Identification and recording

Sheep and goats must be identified in accordance with SAGRIMO (see guidance for keepers - information list below). **Sheep** identified from 31 December 2009 will be double identified (usually with 2 UK ear tags) both of which will be printed with the same unique 12-digit ID number preceded by the Letters 'UK'. One of these will include an electronic identifier (yellow) which can be scanned with a reading device as well as being read visually. Animals intended for slaughter within 12 months can be identified with a single tag which will be printed with 'UK' plus the 6-digit flock/herd mark only (these can be electronic or conventional). The use of an EID tag is voluntary for goats.

Animals born before 31 December 2009 can be moved to shows on their existing identification providing it includes an individual number, otherwise they will first need to be individually identified.

Animals individually (electronically) identified after 31 December 2009 will have to be individually recorded in the keeper's holding register from 31 December 2009 and on movement documents from 1st January 2011 - including when moving to/from shows.

There is no requirement to individually record animals individually identified before 31 December 2009 in the keeper's holding register, but individual recording will be a requirement on movement documents from 31 December 2011.

Mobile phones must be switched off whilst judging is in progress.

Judge: Tracey Bretherton - Lancashire

The South of England Show is one of 14 agricultural shows staging a qualifying round for the Pig of the Year

The South of England Show is one of 14 agricultural shows staging a qualifying round for the Pig of the Year Award, organised by the British Pig Association. All eligible will be paraded and the judge will be expected to pick one Boar from the Modern Breeds (Large White, Welsh, Landrace, Duroc and Hampshire) and one Boar from the Traditional Breeds (Berkshire, British Lop, British Saddleback, Gloucestershire Old Spot, Large Black, Middle White, Oxford Sandy & Black and Tamworth) to go forward to the Final. All eligible Gilts will then be paraded and the judge will be asked to select one Gilt from each section to go forward to the Final held at 10.30am on the Wednesday at the Great Yorkshire Show. From the above four selected Pigs the judge will then select the Overall Champion and Reserve. To be eligible to compete in this competition all animals must be the property of a current member of the British Pig Association or the British Lop Society and must be registered in a Herdbook of the British Pig Association or the British Lop Society. Where a breed section has more than one class covering the permitted animal age for the qualifier, the judge will be asked to nominate one of the class winners to go forward. Where the classes are open to more than one breed, the judge must nominate the best male and best female from each breed represented, regardless of their finishing position in the class. Pigs having previously qualified for the Pig of the Year Final will not be eligible to go forward to the Qualifier and will be replaced by the subsequent eligible, placed animal. Prizes will be offered by the BPA for the Overall Champion which will receive £60.00 and a glass trophy and the Reserve will receive £30.00. Prize money for preliminary rounds will be £10 for the best Modern Breed pig of each sex and £10 for the best Traditional Breed pig of each sex, with £10 and a glass trophy for the overall winner. Note: Rosettes only will be presented at each preliminary round. Prize monies and glass trophies for preliminary rounds will be presented at the Final. 1. The Goat Classes are held under the Rules, Regulations and Recognition of the British Goat Society. All exhibits must be registered with the British Goat Society as in the ownership and in the name of the exhibitor, the registered name, number and identification mark being quoted on the entry form plus the kidding date for goats in milk. No entries will be accepted unless CAE blood test results are on BGS submission forms or Premium Sheep and Goat Health Scheme forms. This is to enable quick and accurate confirmation of the status of the goats attending a show. Entries for all kids must be accompanied by the necessary valid certificate for their dams. Goats must have kidded a minimum of 30 days prior to the show. No pregnant goat may be admitted to the showground. In the event of an unforeseen kidding or abortion, the goat must be immediately isolated from other goats. Full details of the goat, exhibitor and action taken must be reported in writing by the chief steward to the BGS secretary immediately after the show. Exhibitors are advised that milk produced at the show should not be fed to goats of any age as this appears to have been a factor in the spread of CAE in the past. Entries will be restricted to goats from herds that are WHOLE HERD NEGATIVE CAE TESTED within 12 months prior to the show. Whole herd CAE tested means and entire herd in which all animals over one year old hold a current negative CAE test certificate, and all kids must be the progeny of a CAE negative tested dam. If any herds have had a positive CAE result the must provide two clear whole herd tests, completed since the reactor has been culled. The tests must not be more than 12 months apart and not less than 6 months apart.

Any goat brought forward for competition must have an ear tag which is legible and corresponds to that on the entry form. Failure may result in disqualification at the discretion of the judge or chief steward.

2. **ARRIVAL AND DEPARTURE:** All exhibits must arrive on the Showground by 1600 hrs on Thursday 4th June. On arrival all Exhibitors must report to the appointed Steward who will allocate penning space. Details of Dairy Goats must be reported to the Steward on arrival. 3. **INSPECTION JUDGING:** Will commence at 1000 hrs on Friday 5th June for Dairy Goats in Show A. For Show B, 1000 hrs on Saturday 6th June

4. **PRIZE WINNERS**

Prize winners must parade on Sunday 7th June in accordance with the instructions of the appointed steward. Failure to do so will disqualify the animal and prize money will be withheld.

5. **CONDITIONS FOR IN-MILK CLASSES AND MILKING TRIALS**

All goats in-milk entered in the Inspection classes must also be entered in the Production classes. Goats in-milk may be entered in production only. All goats in-milk must be stripped to the satisfaction of the appointed Steward by 1900 hrs on Thursday 4th June. Milking Trials will take place at 0700 hrs on Friday 5th June. Inspection with full udders takes place at 0700 hrs on Friday, followed by normal milking and stripping out. Inspection judging takes place on Saturday 6th June at 1000 hrs.

75. No goat shall be eligible to compete in a milking trial that has kidded less than 30 days prior to the date of the show, and goats that yield less than 2.5 kilos in total shall be disqualified and be allotted no points.
